Dear all,

Now that the migration to Apigee X is complete, **please be informed that the PROD environment will be decommissioned tomorrow.**

Please take note of the shutdown schedule per environment:

After these dates, Edge instances will no longer be accessible.
Access will be permanently removed with no possibility of recovery.

COE API V1 will also be shut down on April 21, 2026.

Make sure you are using V2 find the documentation here: [COE API V2](#)

For any questions, please reach out to our API Guardians!
